Eleexo XXL Shower-toilet chair high / low

Caring for Bariatric clients with traditional shower-toilet chairs is heavy work. Care staff are obliged to work in unnatural postures and suffer from static back strain. Lopital offers relief with the height-adjustable Eleexo XXL shower-toilet chair.

The electric height-adjustability ensures that the seat reaches a maximum tilting angle of 17 degree when at its maximum height, thereby creating the optimum seating balance for the client / resident. The Eleexo XXL provides comfort with the ergonomically shaped seat, calf support and foldable extended armrests.

Elexo XXL Shower-toilet chair high / low
